

DURA-CYL®

PREMIUM LIQUID CYLINDERS - FOOTRING

The Dura-Cyl® Liquid Cylinder series is a premium transportable liquid cylinder for cryogenic service. The patented internal support system design and quality construction makes the Dura-Cyl series the most efficient yet rugged cylinder on the market today. Along with our premium Liquid Cylinder Control Manifold (LCCM) regulator and our wide choice of caster base options⁽¹⁾, the Dura-Cyl series is also the most userfriendly cylinder available. Adding our industry-leading seven-year vacuum warranty and you get the lowest cost of ownership - making the Dura-Cyl the preferred choice in transportable liquid cylinders.

See Caster Base specification sheet (PN 14336761).

*Chart liquid cylinders are designed to be used in a full for empty exchange program. They are not designed to be permanently installed in mobile applications.

PRODUCT HIGHLIGHTS

- Ideal for liquid nitrogen, oxygen, argon, CO₂ or nitrous oxide
- Different sizes, pressures, and features to meet your needs
- Stainless steel construction
- Thick, dent-resistant outer shell
- Patented durable, inner-vessel support system
- Heavy-duty footing and large diameter handling ring with four supports
- Liquid Cylinder Control Manifold (LCCM), standard for MP, HP & VHP models
- C-Stic Capacitance Liquid Level Gauge System/ Accuracy +/- 1%
- Seven-year vacuum warranty
- PB Regulator Kit now standard on LP Models

The C-Stic Liquid Level Gauge offers improved accuracy and reads zero to 100% full.

LCCM Models have an integral mounted combination pressure control regulator with an isolation valve. (MP & HP models only)

The Dura-Cyl LP models are equipped with a liquid globe valve with an extended stem allows less ice build-up on the handle for easier operation.

LP Models are offered with the LP PB Regulator Kit as standard equipment when ordered. Chart Parts will continue to stock the Kit for Retrofit options.

(1) Gas capacities at DOT4L limits. See manual P/N 10642912 for details.

NER = Nominal Evaporation Rate

(2) Most of the Dura-Cyl models are available with permanently installed CGA fittings for medical applications. Contact customer service for details.

(3) Dimensions are measured from the floor to the top of the sight gauge protector.

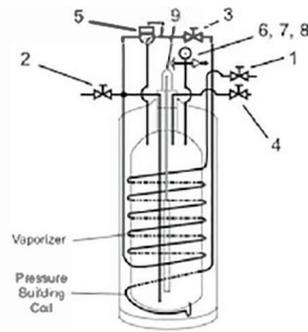

(4) Pressure building regulator standard on LP models.

Model: LP - Low Pressure (Liquid Use Only)

Nomenclature

1. Fill / Liquid Valve
2. Pressure Building Valve
3. Vent Valve
4. Pressure Building Regulator
5. Pressure Gauge
6. Pressure Relief Valve
7. Rupture Disk
8. Liquid Level Gauge

Model: MP & HP - Medium & High Pressure (Liquid or Gas Use)

Nomenclature

1. Gas Use Valve
2. Fill / Liquid Valve
3. Pressure Building Valve
4. Vent Valve
5. LCCM Pressure Building Regulator
6. Pressure Gauge
7. Pressure Relief Valve
8. Rupture Disk
9. Liquid Level Gauge
