{9.20} MetroMax[®] i Polymer Shelving

All polymer corrosion-proof shelving constructed of advanced polymers and Type 304 stainless corners. Open grid or solid shelf mats easily lift off the shelf frames. Shelves and polymer posts offer a lifetime warranty against rust and corrosion. Shelf mats have built-in Microban® antimicrobial product protection. Shelf has a rigid four-sided frame with center truss. Robust corner provides complete 360° capture of the wedge and post for added stability. Stationary units have maximum capacity of 2,000 lbs. (907kg) evenly distributed. Mobile units (with stem casters) offer a maximum total unit load of 900 lbs. (408kg). Units assemble easily — shelves mount on four one-piece wedges along numbered, grooved posts and adjust on 1" (25mm) increments.

- Rust & Corrosion-Proof: All-polymer and Type 304 stainless design withstands moisture, chemicals, and harsh environments.
- Forever Guarantee: Lifetime warranty against rust and corrosion.
- Maximum Strength: Proven corner connection and rigid four-sided frame with center truss assure stability and strength in stationary, mobile, and high-density track shelving configurations.
 1000 lbs. (454kg) per shelf for lengths of 24" to 48" (610 to 1219mm) 750 lbs. (340kg) per shelf for lengths of 54" (1372mm) or longer Stationary unit: 2000lbs (907kg) evenly distributed.
 Mobile unit (with stem casters): Up to 900lbs. (408kg).
 Multiply the caster load rating by 3 to determine actual rating.
- Easiest to Clean: Smooth surfaces easily wipe clean. Polymer mats can be easily removed and cleaned in a sink or commercial washer/dish machine.
- Microban[®] Antimicrobial Product Protection is built into the shelf mats to help fight the growth of stain and odor-causing bacteria, fungi, mold, and mildew to keep product cleaner between cleanings.
- Smooth, Protective Surfaces: Smooth, flat surfaces protect packaged shelf contents from unwanted rips, tears, or damage.
- Efficient Use of Space: Shelves adjust on 1" (25mm) increments along the post to maximize the use of available vertical space.
- Fast, Easy Assembly: Shelves are ready to use right out of the box. One-piece wedges securely attach to the posts Raised beads on the back of each wedge snap into the grooves on the post. Window on wedge aligns with numbers on the post to locate the desired shelf position. Shelf seats into position over the posts and wedges. A unit can be assembled without tools in minutes.
- Interchangeable: Part of the MetroMax platform, corrosion proof MetroMax i shelves are compatible on the same shelving units with MetroMax Q and MetroMax 4 shelves.
- Robust Open Grid and Solid Mat Options: Shelf mats are sturdy and safely support concentrated loads from instrumentation and equipment. Built-in ship's edge helps contain supplies in mobile applications.

Open grid mats are sectioned and promote air circulation and light penetration. **One-piece solid mats** offer maximum spill retention and are ideal to protect items on the bottom shelf from dirt or backsplashes from cleaning floors. Note: 72" L (1829mm) solid shelf has two mat sections.

- NSF Listed for all environments.
- Maximum Versatility: complete line of accessories are found on spec sheet 9.25.

MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban® Products Company, Huntersville, NC Microban® product protection does not by itself protect a user from food borne illness. Product must be routinely cleaned.

{9.20} MetroMax[®] i Polymer Shelving

Material Specifications:

- Shelf Mats: Polypropylene with built-in Microban antimicrobial product protection.
- Longitudinal Beams: Pultrusions continuous glass fibers and thermoset resin composite.
- End Beams, Adjustable Foot and Socket, Shelf Wedge Connector: Reinforced nylon.
- Fasteners: Type 304 stainless steel screws.
- Posts: Pultrusions continuous glass fibers and thermoset resin composite.
- Post Cap and Center Beam Cap: High-density polyethylene.
- "S" Hook Tab Hole Plug: Vinyl.
- Collar and "S" Hook: Type 304 stainless steel.
- Continuous Temperature: MetroMax i[®] can be used continuously within a range of -20/120° F (-29/49° C) with intermittent exposure to 212° F (100° C) for cleaning.

Job _____

MetroMax Q[®] Polymer / Wire Shelving

Quick-to-adjust, corrosion resistant shelving constructed of removable polymer open grid shelf mats, wire shelf frames, and corner releases. Shelf frames and steel posts have an epoxy coating over an electroplated substrate. Shelves offer a 20 year warranty against rust and corrosion. Polymer posts are rust proof. Microban® antimicrobial product protection is built into the shelf mats and posts. Shelf has a rigid four-sided frame with center truss(es). Robust corner provides complete 360° capture of the wedge and post for added stability. Stationary units have maximum capacity of 2,000 lbs. (907kg) evenly distributed. Mobile units (with stem casters) offer a maximum total unit load of 900 lbs. (408kg). Units assemble easily — shelves mount on four one-piece wedges along grooved, numbered posts and adjust on 1" (25mm) increments.

• **Forever Strong:** Proven corner connection and four-sided shelf frame with center truss(es) assures stability and strength in stationary, mobile, and high-density track shelving configurations.

800 lbs. (363kg) per shelf for lengths of 24" to 48" (610 to 1219mm) 600 lbs. (272kg) per shelf for lengths of 54" (1372mm) or longer Stationary unit: 2000lbs (907kg) evenly distributed. Mobile unit (with stem casters): Up to 900lbs. (408kg). Multiply the caster load rating by 3 to determine actual rating.

- Long life Rust Resistance: Shelves offer a 20 year limited corrosion warranty and are combined with rust proof polymer posts.
- Easy to Clean and Maintain: Polymer mats can be easily removed and cleaned in a sink or commercial washer / dish machine.
- **Microban® Antimicrobial Product Protection** is built into the shelf mats and posts to inhibit the growth of bacteria, mold, mildew, and fungus that cause odors and product degradation. Microban product protection keeps the product "cleaner between cleanings".
- **Quick-to-Adjust:** Patented corner release allows shelves to be adjusted without tools. Simply flip each corner release, relocate the wedge connectors on the posts, and reposition the shelf. Quickly adjust shelves to reclaim wasted vertical space.
- Efficient Use of Space: Shelves adjust on 1" (25mm) increments along the post to maximize the use of available vertical space.
- Fast, Easy Assembly: Shelves are ready to use right out of the box. One-piece wedges securely attach to the posts. Raised beads on the back of each wedge snap into grooves on the post. Window on wedge aligns with numbers on the post to locate the desired shelf position. Shelf mounts on four wedges, A unit can be assembled without tools in minutes.
- **Interchangeable:** Part of the MetroMax platform, MetroMax Q shelves are compatible on the same shelving units with MetroMax i and MetroMax 4 shelves.
- **Open Grid and Solid Mat Options:** MetroMax Q is available with open grid mats. Open grid shelves promote air circulation and light penetration. If a solid shelf is required, MetroMax i or MetroMax 4 solid shelves may be added to the MetroMax Q unit.
- · NSF Listed for all environments.
- · Optional Accessories are on spec sheet 9.25.

Material Specifications:

- Shelf Mats: Injection-molded polypropylene with exclusive built-in Microban® antimicrobial product protection.
- Shelf frames: Steel with electroplated substrate and highly durable, abrasion-resistant epoxy finish.
- **Epoxy-coated posts:** Steel with electroplated substrate and highly durable, abrasion-resistant epoxy finish. Epoxy finish has built-in Microban antimicrobial product protection. The adjustable foot is reinforced nylon.
- Temperature range: -20°F (-29°C) to 125°F (52°C) continuous use, with intermittent exposure to 200°F (93°C) for cleaning. Visit metro.com/service-support for cleaning guidelines.

*MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban® Products Company, Huntersville, NC. Microban® product protection does not by itself protect a user from food borne illness. Product must be routinely cleaned.

MetroMax[®] 4 Polymer Shelving

All-polymer corrosion proof shelving with removable open grid or solid shelf mat sections. Shelves and polymer posts offer a lifetime warranty against rust and corrosion. Shelf mats and posts have built-in Microban® antimicrobial product protection. Rigid four-sided shelf frame and robust corner with complete 360° capture of the wedge and post ensure stability, strength and structural integrity. Stationary units have maximum capacity of 2,000 lbs. (907kg) evenly distributed. Mobile units (with stem casters) offer a maximum total unit load of 750lbs. (340kg). Units assemble easily—shelves mount on four one-piece wedges along grooved, numbered posts. Shelves adjust on 1" (25mm) increments.

- Rust & Corrosion Proof: All-polymer construction withstands moisture, chemicals, and harsh environments.
- Lifetime: Polymer shelves and posts offer a Lifetime Warranty against rust and corrosion.
- Proven Stability: Proven Metro corner design and rigid four-sided shelf frame deliver sturdy stationary, mobile, or high-density track shelving configurations.
- Easy-to-Clean: 6" (152mm) wide shelf mats easily remove from the shelf for cleaning by hand or in a commercial washer / dish machine.
- Microban[®] Antimicrobial Product Protection is built into the shelf mats and posts to inhibit the growth of bacteria, mold, mildew, and fungus that cause odors and product degradation. Microban product protection keeps the product "cleaner between cleanings".
- Smooth, Protective Surfaces: Smooth, flat surfaces protect packaged shelf contents from unwanted rips, tears, or damage.
- Weight Load Capacities (Evenly Distributed) Shelf up to and including 48" (1220mm) length: 800 lbs. (363kg) Shelf 54" (1372mm) or longer: 600 lbs. (272kg) Stationary Unit: 2,000 lbs. (907kg) Mobile Unit (with stem casters): up to 750 lbs. (340kg). Multiply the caster load rating by 3 to determine actual rating [not to exceed 750 lbs. (340kg)].
- Efficient Use of Space: Shelves adjust on 1" (25mm) increments along the post to maximize the use of available vertical space.
- Fast, Easy Assembly: Shelves are ready to use right out of the box. One-piece wedges securely attach to the posts Raised beads on the back of each wedge snap into the grooves on the post. Window on wedge aligns with numbers on the post to locate the desired shelf position. Shelf seats into position over the posts and wedges. A unit can be assembled without tools in minutes.
- Interchangeable: Part of MetroMax platform, MetroMax 4 is compatible on the same shelving units with MetroMax i® and MetroMax Q® shelves.
- Two shelf styles: All MetroMax 4 shelf mats have a ³/₁₆" (5mm) tall ship's edge built into each end to help contain supplies during mobile applications.
 Open Grid: Promotes air flow and light penetration.
 Solid: Built-in recesses help contain spills. Solid bottom shelf serves as a barrier to dirt and debris.
- NSF Listed for all environments.
- Optional Accessories are on spec sheet 9.25.

*MICROBAN® and the MICROBAN® symbol are registered trademarks of the Microban® Products Company, Huntersville, NC. Microban® product protection does not by itself protect a user from food borne illness. Product must be routinely cleaned.

MetroMax[®] 4 POLYMER SHELVING

Material Specifications:

- Shelf Mats: Polypropylene. Mats contain Microban® antimicrobial product protection.
- Longitudinal Beams: Pultrusions continuous glass fibers and thermoset resin composite.
- End Beams, Adjustable Foot and Socket, Shelf Wedge Connector: reinforced nylon.
- Posts: Pultrusions continuous glass fibers and thermoset resincomposite with built-in Microban® antimicrobial product protection.
- Post Cap: High-density polyethylene.
- Continuous Temperature Exposure Range (with shelves under load): -20/120° F (-29/49° C). For cleaning the maximum intermittent temperature exposure is 212° F (100° C).

Job _

Super Erecta[®] Shelf Wire Shelving

- **Unique Design:** The open wire design of these shelves minimizes dust accumulation and allows free circulation of air, greater visibility of stored items and greater light penetration.
- **Durable Construction:** Super Erecta shelves and posts are constructed of heavy-gauge carbon steel or Type 304 stainless steel.
- Choice of Finishes: Super Erecta Brite[™] and chrome-plated for dry storage; Metroseal[™] Epoxy (green or gray), and Type 304 stainless steel for corrosive environments; and attractive epoxy color options for merchandising applications.
- **Metroseal:** Proprietary rust-resistant finish is a durable epoxy coating over a protective zinc substrate. Metroseal contains Microban[®] antimicrobial product protection which continuously fights the growth of bacteria, mold, and mildew that cause stains and odors. 12-year limited warranty against rust and corrosion.
- **Versatile:** Super Erecta[®] Shelf wire shelving can adapt to your changing needs. By using various accessories, hundreds of shelving configurations become possible.
- Fast, Secure Assembly: SiteSelect[®] Posts have a double groove visual guide feature every 8" (203mm), circular grooves at 1" (25mm) increments, and are numbered at 2" (50mm) intervals. A patented, tapered split sleeve snaps together around each post. Tapered openings in the shelf corners slide over the tapered split sleeves providing a positive lock. Shelf is assembled in minutes without the use of any special tools.
- Adjustability: Shelves can be adjusted at 1" (25mm) intervals along the entire length of the post.
- **Shelf Ribs:** Run front to back, allowing you to slide items on and off shelves smoothly.
- **Shelf Accessibility:** Shelves can be loaded/unloaded easily from all sides This open construction allows maximum use of storage cube.
- Adjustable Feet: Bolt levelers compensate for surface irregularities.

Note: Stainless stationary posts are equipped with stainless steel leveling feet.

Split Sleeve

- See spec sheet 10.14 for epoxy color options.
- Plastic split sleeves are included with each shelf Replacements are available: Cat. No. 9985 (bag of 4)
- Aluminum split sleeves are recommended for abusive mobile applications. Sleeves with stainless C-rings must be used for cart wash applications (exceeding 200°F/93°C) and for all autoclave applications.

Cat. No. 9986Z (bag of 4 with zinc C-rings) Cat. No. 9986S (bag of 4 with stainless steel C-rings)

- Weight capacity (evenly distributed) per shelf 800 lbs. (363kg) for lengths of 18" to 48" (457 to 1219mm) 600 lbs. (272kg) for lengths of 54" (1370mm) or longer
- Weight capacity (evenly distributed) per unit. Stationary shelving units have a maximum load capacity (evenly distributed) of 2,000 lbs. (907kg). Mobile units have a maximum capacity of three times the caster load rating up to but not exceeding 1,000 lbs. (453kg) total. Consult the Metro catalog for caster load ratings.

Note: The actual length of the shelves is 1/8" (3.2mm) shorter than the nominal dimension shown. The actual depth of the shelves is 1/8" (3.2mm) greater than the nominal dimension shown.

Note: The following restrictions apply to shelving units that utilize 14" (355mm) wide shelves: Free-standing units: Units taller than 63" (1600mm) must be properly fastened to the floor or wall using Metro foot plates or wall brackets. Mobile units: maximum allowable post height is 54" (1370mm).

SiteSelect[®] Posts

Stationary Posts - Equipped with a leveling bolt to account for uneven floors.

- Height includes leveling bolt (completely tightened) and post cap. Leveling bolt can be adjusted 0.5" (13mm).
- Foot plates may be ordered separately and installed in place of leveling foot.
- Replacement leveling bolts: Zinc Cat. No. RPF04-004, Stainless Steel Cat. No. RPF04-004C
- Replacement post cap for standard posts: Black Cat. No. RPC06-035

Super Wide Shelving

• High-density Storage: Super Wide shelves have a greater storage area for holding large quantities of supplies, especially large, bulky objects, providing maximum storage in minimum space.

• Load Capacity (evenly distributed) per shelf:

Depths: 30" and 36" (760 and 914mm) 800 lbs. (363kg) for lengths 48" (1219mm) or shorter. 600 lbs. (272kg) for lengths 54" (1370mm) or longer.

Foot Plates

- Use to bolt units to the floor, or when a broader, more stable foot is desired. Foot plates also help to protect floors by distributing the point load of the shelving unit across a larger contact point.
- Foot plates (completely tightened) add .125" (3mm) to the specified heights of each stationary post on the table. Zinc Cat. No. 9993Z Stainless Steel Cat. No. 9993S

"S" Hook

• Used to add on shelving units with only two posts required. Order two per shelf level. Cat. No. 9995Z

Shelves and Posts

Super Erecta[®] Shelf

Solid Shelving (18-Gauge)

{10.20}

- Strength: Two-fold thickness of 18-gauge steel forms ¹/⁸ (3.2 mm) raised edges on all four sides of the shelving. This ship's edge gives all-around rigidity and high strength.
- Weight Load Capacity: 48" (1219 mm) and shorter holds 800 lbs. (363 kg) per shelf, 60" (1524 mm) holds 600 lbs. (272 kg) per shelf, 72" (1829 mm) holds 300 lbs. (136 kg) per shelf.
- Sanitary: Flat, solid style with the raised ship's edge on all four sides and at the corners contains spills, minimizes contamination and permits easier clean-up. Louvered/embossed shelf design allows air circulation under packages and containers.
- Versatile Construction: Super Erecta® Shelf solid shelving can change as quickly as your needs change. By using various accessories hundreds of shelving configurations become possible.
- Shelf Accessibility: Shelves can be loaded/unloaded from all sides. This open construction allows use of the maximum storage space of the cube.
- Adjustability: Shelves can be adjusted in 1" (25 mm) intervals along the entire length of the post.
- Adjustable Feet: Leveling bolts compensate for surface irregularities. Note: Stainless steel stationary posts include stainless leveling bolts.

Shelving Units

- Metro Super Erecta solid shelving ships knock down. Shelves mount to two-piece split sleeves along grooved 1" diameter posts. Shelves can be installed and adjusted along the entire length of the posts without tools. Solid and Wire shelves may be intermixed on the same shelving units.
- Stationary units can be leveled by adjusting the built-in levelling bolts on the stationary posts. Stem casters install into stem caster ready mobile posts.
- Weight Load Capacities for shelving units are based on evenly distributed load, the type of configuration and in accordance with the stability guidelines and configuration guidelines of the shelving.
 - Stationary shelving units: 2000 lbs. (907 kg)
 - Mobile units on stem casters: 3 times the caster load rating not to exceed 900 lbs. (408 kg).
 - Mobile units on dolly bases: up to 1000 lbs. (454 kg)

LO2-104 | 3/25

- Galvanized Shelves: Formed galvanized 18-gauge sheet with continuous 1/8" (3.2 mm) raised perimeter edge attaches to four uncoated cast aluminum collars with zinc plated hardware. Hemmed two-fold sheet around the perimeter gives overall rigidity and high strength. Each shelf includes a bag of plastic spilt sleeves (high impact polystyrene). Available in flat solid and louvered/embossed styles.
- Standard Type 304 Stainless Steel Shelves: Formed Type 304 Stainless Steel 18-gauge sheet with continuous 1/8" (3.2 mm) raised perimeter edge attaches to four e-coated cast aluminum collars with zinc plated hardware. Hemmed two-fold sheet around the perimeter gives overall rigidity and high strength. Each shelf includes a bag of plastic spilt sleeves (high impact polystyrene). Available in flat solid and louvered/embossed styles.

Autoclavable/Cart Washable Premium Stainless Steel:

Durable materials for environments subject to harsh cleaning protocols, autoclave sterilization or high temperature cart wash chambers.

• Premium Type 304 Stainless Steel:

Complete Type 304 Stainless Steel construction.

Formed Type 304 Stainless Steel 18-gauge sheet with continuous 1/8" (3.2 mm) raised perimeter edge attaches to four cast Type 304 Stainless Steel collars with Type 304 Stainless Steel hardware. Hemmed two-fold sheet around the perimeter gives overall rigidity and high strength. Each shelf includes a bag of plastic split sleeves (high impact polystyrene). Optional Aluminum Split Sleeves are available.

• Premium Type 316 Stainless Steel:

Complete Type 316 Stainless Steel construction. Formed Type 316 Stainless Steel 18-gauge sheet with continuous 1/8" (3.2 mm) raised perimeter edge attaches to four cast Type 316 Stainless Steel collars with Type 316 Stainless Steel hardware. Hemmed two-fold sheet around the perimeter gives overall rigidity and high strength. Each shelf includes a bag

of plastic split sleeves (high impact polystyrene). Optional Aluminum Split Sleeves are available.

Type 304 Stainless Steel Posts General construction: All SiteSelect stainless steel posts consist of 1" (25 mm) outside diameter 18 gauge Type 304 Stainless Steel tubing grooved at 1" increments beginning approximate 2-1/8" (54 mm) from the base of the tube. Grooves are numbered every 2" (51 mm) and there is a double groove every 8" (203 mm) to help visually identify the desired shelf position during assembly. Stationary Standard Post: Includes a low density polyethylene post cap, cast zinc alloy post insert and Type 304 Stainless Steel leveling bolt (shoulder bolt with domed head) - all pre-installed.

• Mobile Post for Stem Caster: Includes a low density polyethylene post cap pre-installed. Bottom is open to accept a Metro stem caster [with 0.845" (21 mm) diameter stem and c-ring].
