

RAISING THE BAR ON ENERGY EFFICIENCY

PHCbi & BSI meet New ENERGY STAR 2.0 Standards

ENERGY STAR® 2.0 Is Here: Stricter Standards, Smarter Choices

The new ENERGY STAR® Version 2.0 standards have raised the bar, eliminating more than 80% of previously qualified models. PHCbi and BSI brand refrigerators and freezers still meet these tougher requirements, delivering reliable performance, lower energy costs, and long-term sustainability. All certified models use hydrocarbon natural refrigerants, ensuring uniform cooling with a reduced environmental footprint.
